

Do NOT enter ANY HRCU facility if you have tested positive for, have been exposed to, or have any symptoms of Coronavirus. Anyone coming into any of our facilities who meets these criteria can be expelled from membership. If you fall into one of these classifications, please contact us by phone or through online banking and we will work to help you find alternative ways to do transactions.

Breach of this policy cannot only result in membership expulsion, but could also cause severe illness or even the death of others. As a credit union, Holy Rosary is founded on the philosophy of "people helping people." Therefore, we believe that all our members share that ideal and would not want to hurt others. We do not believe that anyone in our credit union family wants to be responsible for transmitting the virus that can kill another or many others. We believe that our members are interested in the welfare of each in our group and not just their own banking needs.

To paraphrase the prophet Jeremiah, we should be committed to helping, rather than hurting, others because "in (their) welfare you will find your welfare." Please join us in protecting and working together for the welfare of all.

Thank you
